

U3A Genealogy/Family History ZOOM Talks:

'Uncovering your family's past' GETTING STARTED, the U3A way – a look at my approach for U3A's starting a family history group, and joining the over 500 U3A genealogy/family history groups in the UK...

(Approx. 30 – 35 minutes with Q & A's)

FamilySearch – a review of the largest **free** genealogy organization in the world!

(Approx. 15 minutes with Q & A's)

Genetic Genealogy - understanding DNA testing – a talk on understanding the use of DNA testing to find your family matches, you're ethnicity, and review the current market for testing...

(Approx. 30 – 35 minutes with Q & A's)

Surname Mapping – investigating the origins of one's own surname is often a natural diversion for family historians. For **'one-namers'**, the surname takes over, as they study its history and look for patterns of name distribution; tracing movements across borders; allying research with **DNA studies**; and linking up with namesakes from across the globe...

(Approx. 30 – 35 minutes with Q & A's)

Early 20th century family and social history research – the 1930s, an era of defining events that would change the course of many families for decades to come...

(Approx. 30 – 35 minutes with Q & A's)

'The future for family history research' – a review of the past, how we got to the present day, and what of the future for researching your ancestors...

(Approx. 35 – 40 minutes with Q & A's)

No fees, no travel expenses, just request a Zoom 'PowerPoint' talk given by the:
