

## **The Textile Crafts Group**

### **Read more...**

During 2020 we met outside as much as was allowed by the rules at the time and during the winter, we have kept in touch using email, swapping news, gossip and occasionally recipes. We can't wait to meet again properly and see what we have all been doing. When we do, we hope to welcome some new members to the group and we're looking forward to discovering some fresh skills to practise.
